

## **PRESS RELEASE**

### **This Credit Repair System ACTUALLY works! Now they have joined forces with Living Free and Clear!**

United States of America (Press Release) December 12, 2007 –

Hello everyone, I was so impressed with my experience with NCA/Living Free and Clear Credit Repair system that I felt like I had to share this with everyone out there that believes there is no hope for their credit.

I have been trying to fix my credit for about 2 years now and I have spent thousands of dollars watching every company I go to FAIL. They made all these claims but they could never deliver. At first I was really excited about getting my credit fixed. Little did I know that most credit repair companies out there were scams. Some were ok but none of them could do what I needed.

Well, after trying and trying I started to just give up. My credit was horrible. I had major problems. I lost my job which put me behind on my payments by 4 months, including my mortgage payments. I had charge-offs and collections also.

One day, I was searching on the web and found this system.

At first I didn't know what to think about it because they were making outrageous claims. The one that caught my eye the most was their \$10,000 CASH guarantee to the client if they failed. I told myself that I'm sure nobody would make that type of claim if they couldn't at least do something about it.

Anyway, after reading over the website I was still skeptical about the program, but thought I would give it one more shot.

All I can say is, WOW! Thanks to this system I now have completely clean credit files for all 3 credit companies: Equifax, Experian, and Transunion.

I was fortunate enough to speak with the system founder personally, and I asked him how he was able to do this. He said the main advantage that he has with his system, is that his partner used to work for Equifax for many years. He said his partner was not just some employee that worked there, but he was very high up in the company. He said they are able to remove 100% of the negative items on your reports that they work on.

I didn't believe this at first but the results and excellent services changed my outlook completely about credit repair. I know most companies out there are full of crap, but I want to let everyone know this Credit Repair system is the real deal. They do what nobody else can do, and I still don't really know how they do it, but everything is obviously 100% legal.

Well, that is all I can say. If anyone wants a legal source of credit repair that ACTUALLY works then get started now.

**THIS SYSTEM IS AMAZING!**

Thanks everyone,  
Margaret
